### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Claims 36 and 19 are allowable over prior art of record. The prior art of record failed to teach a system comprising: a driver having a primary output terminal and a secondary output terminal; a receiver having a primary input terminal coupled to the primary output terminal and a secondary input terminal coupled to the secondary output terminal; a primary peak detector coupled to the primary input terminal and having a primary peak output; an output amplifier having a first amplifier input coupled to the primary input terminal and a second amplifier input coupled to a first reference potential; a primary feedback amplifier having a first primary feedback input coupled to the primary peak output and a second primary feedback input coupled to a second reference potential and having a primary feedback output; a primary feedback circuit coupled to the primary feedback output and coupled to the primary input terminal; and a secondary peak detector coupled to the secondary input terminal and having a secondary peak output; a secondary feedback amplifier having a first secondary feedback input coupled to the secondary peak output and a second secondary feedback input coupled to the primary peak output and having a secondary feedback output; and a secondary feedback circuit coupled to the secondary feedback output and coupled to the secondary input terminal; and wherein the second amplifier input is coupled to the secondary input terminal as claimed in independent claim 36. thus claims 36 and 13 - 19 are novel and unobvious over prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
